DESCRIPTION

I am a Junior Software Developer, rational, committed to achieving goals at all costs, disciplined and hard-working, I like to learn from projects and work as a team. I currently have two degrees related to web development and software development. Likewise, I'm constantly growing and learning. Graduated as a Programmer Analyst (Jr. Software Developer), handling all kinds of technologies both as Hardware and Software level. Knowledge of telecommunications, networks, development of mobile applications and web applications. Development of virtual environments and among others. Officially Certified as a Full Stack Python Developer. Full management of web applications, as well as Front End using various visual tools, full management of BackEnd with Python and control of SQL/NoSQL databases. I find myself constantly practicing and pursuing/acquiring knowledge.

HARD-SKILLS
